

THE PRODUCT

It is an innovative direct production reverse osmosis purifier that provides you with lightly drinkable superior quality water, cleared of underivable substances, directly from your kitchen tap.

It produces water with a low degree of saltiness, without the need of a storage tank.

It is designed to be fitted to any kind of kitchen, positioned behind the skirting board.

Its technology and filtration system will guarantee you water that is perfect for drinking.

It is an eco-sustainable choice because it allows you to eliminate plastic-mineral water bottles, reducing the amount of CO2 released during the production and transport of the bottles.

TECHNICAL FEATURES

PERMEATED FLOW RATE:
60 l/h

SALTINESS REJECTION :
94% MAX

SUPPLY WATER PRESSURE:
2-4 bar

MAX WORKING PRESSURE:
7 BAR

PRODUCT SIZE:
400 lX440pxX105h (mm)

ELETTRICAL SUPPLY:
230 VAC / 24VDC

DIRECT PRODUCTION REVERSE OSMOSIS PURIFIER

WHAT DOES THE SYSTEM DELIVER?

- 01 WATER WITH A LOW DEGREE OF SALTINESS
- 02 DRINKABLE SUPERIOR QUALITY WATER
- 03 WATER WITHOUT IMPURITIES AND TURBIDITY

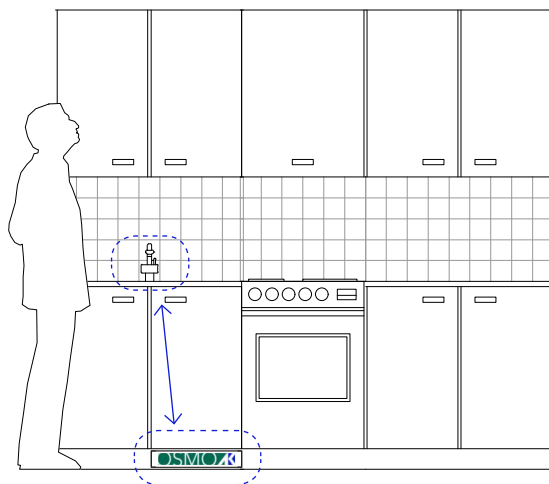

REVERSE
OSMOSIS

MADE IN ITALY

NEW WATER
TREATMENT
SYSTEM

LOCATION

IT IS DESIGNED TO BE FITTED TO ANY KIND OF KITCHEN, POSITIONED BEHIND THE SKIRTING BORD.
