NATURE'S CLEANEST ENERGY

INTRODUCTION

Brothers Gas Bottling & Distribution Co. LLC was established in 1992 has experienced a meteoric rise; from humble beginning providing clean & portable fuel solutions from a single LPG Bottling Facility in UAE to our current position as leading LPG & Industrial Gas solution providers spread across different countries across the globe.

Unrivalled & Unique Blend - Brothers Gas is the ONLY Company which offers one - stop solution for all type of Gases, Chemicals and Engineering solutions with an integrated business model.

The company's broad portfolio is catered in form of Bulk Liquids, Cylinders, ISO Tanks, etc.

Brothers Gas is strategically located in different parts of the world to serve its broad base of customers.

Today Brothers Gas serves millions of customers annually with a very large infrastructure comprising of huge storage capacity in LPG & Cryogenics, Filling Plants, and Distribution fleet of 100+ trucks for bulk and packages gases.

VISION STATEMENT

"TO BECOME THE MOST RELIABLE MARKET LEADER
IN TOTAL GAS SOLUTIONS"

VERSATILE RANGE

LIQUEFIED PETROLEUM GAS

LIQUEFIED PETROLEUM GAS

LPG is by far the most versatile, portable, clean, accessible and efficient energy source which is readily available to consumers around the world and used in thousands of applications.

Some of the sectors served by LPG are as follows:

- Hospitality
- Transportation
- Power generation
- Heating
- Industries
- Farming
- Cooking
- Recreational purposes

LPG is a gas easily stored in liquid form in small, medium or large containers.

We at Brothers Gas provide versatile fuel backed by optimized solutions to meet the needs of our customers from last 20+ years.

Enhanced LPG Solutions: From a single product LPG, Brothers Gas started diversifying in Enhanced LPG Solutions for specialized applications.

Brothers Gas has invested in state of the art Aerosol Plant to produce Odorless Gas and caters to various industries like Perfume, Cosmetic, etc.

In 2010 Brothers Gas started its 1st LPG additive filling facility to provide alternative and enhanced products for applications like Metal Cutting, Brazing, Heating and Auto LPG solutions like Forklift Gas.

DIVERSE SUPPLY MODES IN LPG ARE...

LPG BOTTLING

LPG Bottling plants spread over different locations and built with a state - of - the - art technology are equipped to fill 25lbs, 50lbs and 100lbs cylinders functioning at highest safety levels meeting international standards and adhering to the local regulators requirements.

These LPG bottling facilities caters to the requirements of Brothers Gas cylinder distributors within UAE and other export markets.

In 2008 the LPG Plant opened in Ras Al Khaimah with a storage capacity of million litres. The plant is equipped with Cylinder filling facility.

LIQUEFIED PETROLEUM GAS

LIQUEFIED PETROLEUM GAS

LPG CYLINDER SUPPLIES

We bring this versatile and readily available fuel in portable solutions for our wide range of customers in Commercial, Industrial and Domestic Sector and allow people to use our gas as required.

Supplied in an extensive range of cylinders to suit the requirements and delivered at your door step backed by an ultra-modern fleet of distribution vehicles.

Backed by tailor made engineering solutions of manifold systems with a range of accessories like regulators, valves, etc... we also provide our varied customer base with options of Liquid Off Take Valve (LOT), Large Cylinders and other solutions.

LPG BULK SUPPLIES

Supply in bulk LP Gas has inherent advantages to users giving them the flexibility and control for using it for multiple applications in large volumes and eliminating the risk of running out of gas.

Brothers Gas is supplying LP Gas in bulk to the best names in the Hospitality, Industries, Domestic, Educational institutions and medical facilities across the geographical landscape of UAE.

Our substantial gas storage and supply chain infrastructure delivers supply-security that is unmatched in the industry, this offers assurance and reliability to all our customers. Brothers Gas owns one of the largest LPG Storage facilities which has a capacity running into millions of litres.

WHY CHOOSE BROTHERS GAS FOR LPG ?

- Reliable delivery – Having invested in one of the largest distribution fleet (100+), we are able to deliver to all locations in the UAE.
- Experience and expertise – With over 25 years of gas storage and supply experience. Our expertise and range of supply and storage options is unrivalled in the industry. We are trustworthy for all gas-supply requirement.
- Remote tank monitoring – Our sophisticated telemetry system allows us to remotely monitor the contents of the tank and schedule top-ups to ensure there is never any shortage.
- Engineering team – Our highly experienced in-house customer engineering team offers unrivalled technical design capabilities, free consultancy and full project management of your LPG supply installation. We stock and supply a wide range of tank sizes allowing us the flexibility to specify single or multiple tank combinations to suit almost any application and site – assuming there is sufficient space for fuel storage in the first place.

INDUSTRIAL GASES

INDUSTRIAL GASES

INDUSTRIAL GASES

The air we breathe is a mixture of various gases, each with its own unique properties that are invaluable for industrial process and medical usage.

We at Brothers Gas have been providing Industrial Gas solutions from 2010 which started with only distribution of cylinders. With continuous growth at the end of 2014 a state-of-the-art Industrial Gas Filling Plant was established and opening of one of the only few Ammonia Filling Plants in the region by the end of 2015.

This facility is equipped to provide a full range of Industrial, Medical, Specialty, Calibration and Ultra High Purity Gases and Bulk Gases.

In the year 2019 we started a liquid helium trans fill capable of handling liquid helium ISO Tanks. The facility will enable Brothers Gas to fill high pressure cylinders, tube trailers, quads, and liquid helium dewars for its broad base of customers in local and export markets.

The principal gases are nitrogen, oxygen, carbon dioxide, argon, hydrogen, helium and acetylene; although a huge variety of gases and mixtures are available.

Some of the sectors served by Industrial Gases are as follows:

- Chemicals
- Glass
- Welding and Metal Fabrication
- Ship Repair and Maintenance
- Food and Beverages
- Medical
- Oil and Gas
- Electronics
- Hospitality
- Paper
- Construction and Infrastructure
- Laborites
- Metal

A wide range of gases can be transported to users in a number of different ways, for example in cylinders, quads, tube trailers under very high pressure or bulk liquids in special vessels designed to hold cryogenically liquefied gases at extremely low temperatures.

The volume of gases purity levels and delivery intervals will vary depending on their utilization.

INDUSTRIAL GASES

INDUSTRIAL GASES

DIVERSE SUPPLY MODES IN INDUSTRIAL GAS ARE:

INDUSTRIAL GAS CYLINDER & RACK SUPPLIES

Brothers Gas offers cylinders, the traditional solution for low volume of gas. For small and medium sized users, single cylinders offer a low-cost, versatile method of gas supply. Cylinders can be supplied in a full range of sizes, pressures and gas purities for a wide range of gases and gas mixtures or for larger volumes manifolded cylinder packs can be supplied.

From oxygen, nitrogen, argon, helium, and hydrogen to medical and specialty gases, calibration gas mixtures and high-purity gases to welding, cutting gases, shielding and fuel gases. You can also rely on us for packaged chemicals and a wide range of refrigerant gases.

BULK GASES

From supplies in Dewars, Micro Bulk Solutions to Bulk Deliveries by truck we provide a safe and reliable supply option as per the needs of our customer.

Bulk deliveries by tankers provide a safe, reliable supply option for high volumes users, Brothers Gas team can assist from determining the right size & type of storage tanks based on volume, desired pressure, purity and flow rate.

Backed by a flexible and efficient logistics and distribution infrastructure Brothers Gas will ensure its customers always get the products they need - quickly, reliably and cost-efficiently

WHY CHOOSE BROTHERS GAS FOR INDUSTRIAL GAS SUPPLY?

- We offer safety and application training on gas characteristics and hazards, safe handling and storage, personnel protective equipment and the correct use of your gases for each application.
- With the user of telemetry systems, our logistics teams can continuously monitor the level of product in your tanks to help determine the optimum date and time for your next delivery.

VERSATILE RANGE

HELIUM

Helium is used in variety of application ranging from Aerospace, Automotive, Diving, Electronics, Healthcare, Leisure, Offshore, and Welding & Fabrication Industry. We offer helium in high-pressure gas cylinders and liquid dewars available in sizes of 100, 250 & 400L capacity.

Brothers Gas is the leading supplier of liquid and gaseous helium. For Healthcare sectors, we understand the need for reliable, uninterrupted supply.

Available Supply Options such as

- Liquid Dewar's
- Cylinders
- Cylinder Racks
- Offshore Racks

MEDICAL GASES

Brothers Gas - Health Care Division aims to provide hospitals, clinics, nursing homes and other healthcare facilities with medical gases like nitrogen to preserve vital blood and tissue, helium for MRIs, and oxygen and respiratory therapy gases to help patients breathe.

In an industry that touches all of our lives, we want to provide our customers expect the highest quality medical gases and equipment, and the most comprehensive service and we are a single reliable source for medical gases, equipment and services backed by our distribution network across UAE.

Available Supply Options such as

- Cylinders
- Dura Cylinders
- Bulk Supply in ISO Tanks

SPECIALTY & CAL GAS

With dedicated production facilities, accredited analytical laboratories, as well as purpose- designed and custom-engineered total supply systems. Brothers Gas is capable of supplying specialty and mixture gases and precision blends available in disposable or refillable cylinders.

We have been providing to our customers with best accuracy level which ensures quality testing of samples. And the best shelf life which ensures the stability of gases throughout this period.

Available Supply Options such as

- Disposable Cylinders
- Refillable Cylinder

HIGH PURITY GASES

We supply a wide range of high purity and ultra high purity gases (upto Grade 6.0) Nitrogen, Argon, Helium and Hydrogen are the gases produced to name a few.

With a range of Specialty, Rare, High Purity Gases and Precious blends available in disposable & refillable cylinders, Brothers Gas caters to the requirements for a wide range of customers. Brothers Gas is an EXCLUSIVE DISTRIBUTOR of some of the leading Specialty Gas Brands.

Available Supply Options such as

- Cylinders
- Cylinder Racks

VERSATILE RANGE

FOOD GRADE GASES

Versatile Range of Gases & Gas Mixtures For Your Food Application. We at Brothers Gas offer wide spectrum of pure gases and gas mixtures that find plethora of applications in the food industry. Our food grade blends are tailored to preserve packaged, cooked and raw food items.

MAP has a major role to play in the food industry when used in conjunction with the highest standards of hygiene and temperature control throughout the production, delivery and storage process.

Available Supply Options such as

- Cylinders

ENHANCED & FUEL GASES

Enhanced Gases - Forklift, Metal Cutting, Waterproofing and Powder Coating Gases. Most fuel gases are composed in whole or in part of hydrocarbons we can supply Propane, Butane, Propylene and Acetylene in cylinder, tonners or bulk form.

Enhanced Gases such as

- Metal Cutting Gas
- Forklift Gas
- Waterproofing Gas
- Powder Coating Gas
- Heating Gas

Available Supply Options such as

- Cylinders

BALLOONEE

BalloonEE Disposable Helium Party Kits are easy to use, portable party decoration kits perfect for any occasion. Browse our DIY party ideas, decorations, and themes.

Helium balloons are a great way to decorate any party or event as it creates a celebratory, fun and exciting ambiance to the space! The helium balloons, in particular, are quite special and different from the standard balloons because they float around in the air, remain suspended and do not fall to the ground. People opt for helium-filled balloons to take their party, event or celebration to a next level!

Available Supply Options such as

- Disposable Cylinders
- Refillable Cylinders

EQUIPMENT - TRADING & LEASING

Brother's Gas offers lease and sale of 20 feet super insulated ISO Tanks - IMO 5 (T50) & IMO 7 (T75) Type - Capacities ranging from 19,000 liter to 24,000 liter - Working pressure ranging from 8 to 24 barg. The tanks are certified by Third Party Classification Society (Lloyd's Register/Bureau Veritas).

These ISO tanks are designed and approved to be transported by rail, truck, ship or barge for local, national or worldwide transportation. Products stored or transported on these containers vary from non-hazardous and hazardous gases namely Liquid Oxygen, Liquid Nitrogen, Liquid Argon, Nitrous Oxide, Carbon dioxide, Propane, Butane, Liquefied Petroleum Gas, Aerosol Propellant, Ammonia and Refrigerant Liquids.

REFRIGERANT GASES

REFRIGERANT GASES

Brothers Gas is a major supplier of refrigerants to the Heating, Ventilation, Air Conditioning and refrigeration industries, offering a wide range of products like HCFCs, HFCs, HCs, Natural refrigerants & their services.

- 21,000+ Liters T50 ISO Tank

LUBRICANTS

LUBRICANTS

ADNOC VOYAGER

Experience sheer performance and protection in every drop. With advanced formulation comprised of high quality base oils and balanced additives, ADNOC VOYAGER ensures top performance every time you hit the road.

With more than nine products categories and 125 different types and grades, ADNOC VOYAGER exceeds the highest international specifications, set by the American Petroleum Institute (API), the US Military Authorities, the British Defence Force (DEF/STAN) and the European Automobile Manufacturers Association (ACEA), as well as leading car manufacturers.

AUTOMOBILES

ADNOC Voyager is a shear-stable, multigrade engine oil formulated with high quality base oils and carefully selected additives that ensure high oxidation resistance and provide effective protection against wear, corrosion and deposits build up.

INDUSTRIAL

ADNOC Hydraulic Oil HD is a mineral based hydraulic fluid manufactured to meet the requirements of hydraulic equipment manufacturers for rust and oxidation inhibited and anti-wear mineral oil hydraulic fluids. They are compatible with the seal materials commonly used in hydraulic systems.

MARINE

ADNOC Voyager Marine is a series of high performance diesel engine oils formulated with high quality base oils and advanced additives that provide balanced alkalinity and detergency/dispersancy even for engines burning high aromatic/asphaltenes content and high sulfur residual fuels.

SPECIALTIES

ADNOC MOULD OIL KW is an effective mold release compounds for cast concrete products. Formulated from highly refined mineral oils, it produces a high quality concrete finish resisting blowholes and providing uniform surface finish.

CHEMICALS

CHEMICALS

Brothers Gas supplies a host of world-class additives & chemicals across a range of industries for a wide range of applications. A large number of industrial processes depend on chemicals. They can be basic chemicals for synthesis, they optimize the production efficiency of plants, they improve the product quality and they are vital in terms of environmental protection.

GAS INSTALLATION EQUIPMENTS

GAS INSTALLATION EQUIPMENTS

GASNTOOLS - ONE STOP SOLUTION FOR GAS INSTALLATION EQUIPMENTS

GasNTools.com is a one stop solution platform based in Dubai - UAE supplying all the Installation related equipment's for LPG, Cryogenic, Medical, HVAC , Oil & Gas and MEP tools, equipment, hardware, pipes & fittings, fasteners and many other Industrial Products & Services.

It's a unique platform also supplying all type of Gases like LPG, Industrial Gas, Refrigerant Gas, Hydrocarbons, Helium, Specialty & Calibration across the globe through our vast network of offices, channel partners and Franchise partners. GasNTools stocks & sells more than 100+ brands & its growing, out of that we represent more than 40+ brands on Exclusive basis from across the world backed by manufacturer's warranties, large inventory to cut down the lead time for faster delivery with inhouse distribution network & our tie up with international courier and logistic companies allowing us to ship the goods across the globe.

GasNTools.com platform is designed to cater B2B & B2C customers in a very personalized manner with dedicated account executives, tailor made solutions for storage, delivery for easier project management there by eliminating the cost of purchase & warehouse management for the companies with dedicated warehouses spread across UAE, Saudi Arabia and other countries (coming soon). It's an initiative from Brothers Gas Group, one of the largest energy solution provider in the region.

95+ CONSULTANTS

We are proudly announcing that, GasNtools is approved by 95+ consultants across the GCC and Asia.

989+ PROJECTS

GasNtools.com Online Platform of Brothers Gas is the leading supplier of Gas Equipments for many landmark projects across GCC.

70+ COUNTRIES

We exported gas equipments to around 70+ countries.

APPROVALS AND CERTIFICATIONS

Approvals applicable for selected brands and products only**

GAS INSTALLATION EQUIPMENTS

BRANDS WE OFFER

Exports versatile range of gases, equipment and chemicals to almost 70+ countries across GCC, CIS, Africa, America, Europe and Asia.

LPG STORAGE TANKS

Above Ground LPG Tanks

LPG aboveground tank surface finish is made by one coat of zinc spray and one coat of white polyurethane enamel paint.

Under Ground LPG Tanks

LPG Undergrounder tank, called Tubero Epox, has a special surface treatment applying a thick layer of epoxy paint insulating the tank from the ground stray currents and chemical-physical action.

LPG VAPORIZER

LPG vaporizers available in capacities range from 25 Kg per hour to 1,200 Kg per hour. Available in below two types.

Water Bath Vaporizers

Electrical Bath Vaporizers

SOLENOID VALVES

At GasNtools we offer wide range of solenoid valves for gas flows. S.V. with pilot control for interception of fluids compatible with the construction materials. A minimum operational pressure of 0,2 bar is required. The materials used and the tests carried out ensure maximum reliability and duration.

GAS INSTALLATION EQUIPMENTS

AUTOMATIC SHUTOFF VALVES

Banides - ROAI Genius is exclusively dedicated to inner installations for powering gas to cooking appliance.

It is equipped with a security system that automatically shut-off the gas flow when disconnecting or sectioning the flexible hose.

PRESSURE REDUCTION SKIDS

At GasNtools we offer wide range of pressure reduction skids.

Suitable for

- LPG
- Synthetic Natural Gas
- Natural Gas

VALVES

At GasNtools we offer wide range of ball valves, safety relief valves and butterfly valves.

- 100% leak tested
- Leak proof stem - Lifetime Warranty

Proved quality - all goods are certified, tested and correspond to all engineering standards.

GAS METERS

At GasNtools we offer wide range of gas meters available.

- Compact Design and Low Weight Aluminium Body
- High Accuracy and Long Term Reliability
- Designed to Meet the OIML Recommendation

REGULATORS

At GasNtools we offer wide range of pressure regulators available.

- Wide range of downstream pressure springs
- Downstream spring setting according to specific requirement
- On-field regulation of the required pressure

GAS DETECTION SYSTEMS

Wide range of gas detection systems available from conventional analogue detectors, addressable gas detectors, domestic gas detectors and gas detection control panels.

- Explosion Proof
- Weather Proof

FIRE FIGHTING SERVICES

FIRE FIGHTING SERVICES

Brothers Gas is the leading Refilling Service provider in UAE for Fire & safety Industry and Marine Industry, offering a reliable refilling service for CO2, FM200, NOVEC and INERGEN systems

REFILLING SERVICE FOR FIRE FIGHTING

- Refilling of CO2
- Refilling of FM200
- Refilling of NOVEC 1230
- Bulk CO2 Supply (from Dura to ISO tanks)
- Servicing of all types of Fire Extinguishers (from 5 Ltr to 140 Ltr Extinguishers)
- Hydrotesting for Cylinders - We provide the Hydro Test certificate for each cylinder after job completion.
- Refilling of Inert Gas
 - IG01 - 100% Argon
 - IG100 - 100% Nitrogen
 - IG55 - 50% Argon+ 50% Nitrogen
 - IG541- 52% Nitrogen+ 40% Argon+ 8% CO2

CO2 FIRE EXTINGUISHERS

Refilling of CO2 Fire Extinguisher from 5 Ltr to 140 Ltr. Carbon dioxide fire extinguishers are designed to protect areas where Class B and electrical fires occur. CO2 extinguishers are used indoors where winds and drafts do not affect discharge and where clean agent is required.

REFILLING OF FM200 AND NOVEC

Brothers Gas is the leading supplier of Clean Agent Fire Suppression Systems in UAE. Our refilling facility is capable of refilling cylinders for Novec 1230 and FM200 Systems.

REFILLING FOR INERT GAS SYSTEM

Inert Gas is a colorless, odorless, electrically nonconductive gas with a density approximately the same as air. Inert Gas is stored as pressurized gas within the cylinder assembly. When discharged into a protected space, it is clear and does not obscure vision.

CO2 BULK SUPPLIES

At Brothers Gas, CO2 can be supplied in Cylinder, Dura Cylinders, Cylinder Racks, Tonners or various other forms as per needs of the customers. Tailor-made solutions in supply chains ensure reliability and continuous gas supply.

INTERNATIONAL TRADE

INTERNATIONAL TRADE

With its strategically located offices & depots across the globe, Brothers Gas exports a wide range of gases and quality products to a number of countries.

A fleet of more than 200+ ISO Tanks owned by Brothers Gas makes it the largest player in the region, it is used for transportation of different gases to cater the supply and demand in various markets globally.
