## BLUEFIRE MAPP GAS

THE ORIGINAL MAPP GAS

## MAPP GAS APPLICATIONS

MAPP gas can be used in combination with oxygen for heating, soldering, brazing and even welding because of its high flame temperature of 2925 °C (5300 °F) in oxygen.

Plumbers, refrigeration and HVAC engineers and other tradesmen also value the high heat capacity of the MAPP/air flame.

- ✓ Heating
- ✓ Brazing
- ✓ Soldering
- ✓ Welding
- ✓ Melting

## MAPP GAS IN MODERNIST CUISINE

The art and science of cooking that MAPP gases should be used in preference to cheaper butane or propane as they produce higher temperatures with less risk of giving the food a gas flavour, as can happen with incompletely combusted gas.
