

Supported by the Bahrain Economic Development Board (Bahrain EDB), Aerolam Middle East W.L.L is set to launch their operations in Bahrain with the total investment approximately USD 14.5 Million.

Aerolam Middle East W.L.L, the company is a subsidiary of Aerolam Insulations from India. This marks its first overseas manufacturing unit specialising in the production of insulation material in the likes of foam sheets and cross-linked polyethylene pipes, precisely designed with high-end engineering and advanced research and development teams. The plant will operate out of Bahrain International Investment Park (BIIP).
