

At HH-Shaker, our mission is to provide the Saudi market with high quality air conditioning solutions to settle as a leader among competitors in our industry. For the past 65 years, our family heritage in the Saudi market has been able to build a strong platform of customers' understanding and satisfaction that has allowed us to excel in the level of service that we offer to our valuable consumers and partners.

This year, we are proud to participate in the Big 5 Construct as an Exclusive Diamond Sponsor along with our trusted partner Midea A/C to demonstrate Midea A/C sheer reputation of providing endless comfortable cooling to everyone.

Whether our visitors are looking for commercial or residential units, they are welcome to join HH-Shaker and Midea A/C at our stand which will be showcasing our latest energy efficient technologies to be introduced to the Saudi market in 2024. We are looking forward to another successful event!
