CEO'S MESSAGE

Air Master had its humble beginnings in the United Arab Emirates in 1987. With a strength of just 15 people, basic machinery, space and a limited product range, Air Master catered to only small-scale projects. We got our first phenomenal break in 1997 when we successfully supplied 70,000 grilles for Mina Hajj tents (Makkah-KSA) in just 60 days. This transformed our production strategy to cater large-scale projects, the first of which was the Emirates Towers on Sheikh Zayed road, Dubai. There was no turning back since then.

We have borne witness to the changing landscape of the Middle-East from vast sandy deserts to whopping skyscrapers and man-made islands and we are proud to have been part of these projects. Air Master has left its footprints in various prestigious and coveted landmarks of the Middle-East and India. With each project, Airmaster has continuously expanded its product basket while ensuring to implement best practices in manufacturing. By virtue of our quality and service we were entrusted with the world's tallest tower - The Burj Khalifa.

We are committed to implementing business practices that generate value for our clients, employees and shareholders. Our core strength lies in investing in our people, infrastructure and machinery in order to provide uncompromising quality to our customers regardless of project size or value. As a part of our wider business strategy we are mindful of adhering to strict codes of ethical business conduct and fulfilling our social and environmental responsibilities. Airmaster appreciates the vision of exemplary leaders of this great nation by dedicating itself to fulfill the demands that accompany the regional growth.

We extend our sincere gratitude to our customers for their unwavering support. Airmaster has always considered it a privilege to collaborate with its customers to develop unique customized products. We look forward to continuing this journey of serving you better.

Through innovation and quality, we prosper!

Munvar Khan
CEO

As has been our legacy, we continue to advance every aspect of our business to meet the changing needs of our customers and HVAC industries worldwide. Ever Since 1987, Airmaster equipment emirates LLC has been serving the HVAC industry with Air-distribution, Ventilation, Fire safety products (UL classified) Rubber insulation, Duct accessories, Adhesive tapes and fire rated ducting. We are committed to helping our customers define their HVAC needs as they apply to our product line and help them by continuing to innovate and advance the science of air distribution.

AIR DISTRIBUTION PRODUCTS

Airmaster Equipments Emirates LLC is the first amongst the Airmaster group of companies established in the year 1987. Grilles, diffusers and louvers were one the first products to be manufactured. Today our range of products has expanded considerably to meet the constantly evolving building designs by the architects. Continuous improvement in terms of quality and product line has always been our prime focus. Our recent developments include products such as; UL classified Fire Dampers, Sound Attenuators, VAV Boxes, Architectural Grilles & diffusers, Acoustic Louvers, Motorized Dampers & Diffusers, Security Grilles & Diffusers and High Efficiency Sand Trap Louvers just to name a few.

»» DIFFUSERS

- Square Ceiling Diffuser
- Slot Diffuser
- Perforated Ceiling Diffuser
- Round Diffuser
- Jet Diffuser
- Disc Valve
- Displacement Diffuser
- Drum Louver
- Swirl Diffuser

»» LOUVERS

- Sand Trap Louvers – High Efficiency
- Motorised Louvers
- Acoustic Louvers
- Heavy Duty Louvers
- Drainable Blade Weather Louvers
- Architectural Louvers
- Fresh Air Louvers
- Exhaust Air Louvers
- Penthouse Louvers

»» DAMPERS

- Volume Control Damper
- Round Damper
- Motorized Damper
- Non Return Damper
- Pressure Relief Damper

»» FIRE DAMPERS

- Curtain Type Fire Dampers
- Motorized Fire Dampers
- Motorized Fire And Smoke Dampers
- Motorized Smoke Dampers

» **AIR TERMINAL DEVICES**

- Pressure Independent VAV
- By Pass VAV
- Pressure Independent VAV With Heater

» **SOUND ATTENUATORS**

- Rectangular Sound Attenuators
- Circular Sound Attenuators
- Cross Talk Sound Attenuators

SHEET METAL DUCTING PRODUCTS

» Airmaster had a successful startup of “**Sheet Metal Ducting**” division in 2017. Air Master has now come up with a new product in line with the existing fire safety products - **Fire Rated Ductwork**. It is a non-coated type galvanized steel sheet metal ductwork, tested in accordance with BS 476 part 24 and International standards in internationally accredited laboratories. It is manufactured by specialized technical team using computerized state-of-the-art sheet metal duct manufacturing machines.

In addition to ducts, a wide range of ducting accessories are also available such as; flexible duct connector. Aluminium tape, acrylic sealants, flanges, corners, XLPE insulation, duct coat, adhesives and so on.

TAPES

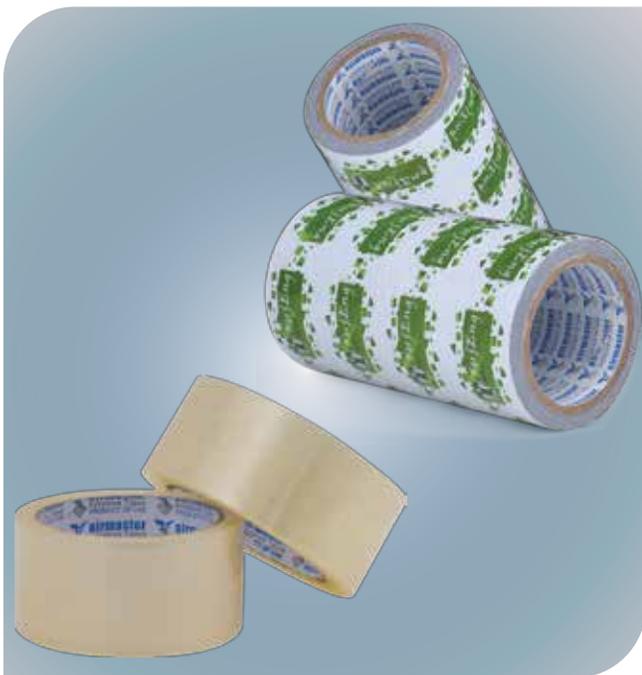

ELECTRICAL INSULATION TAPE

- » • Rubber Insulation
- Flexible Duct
- XLP Insulation
- Acrylic Duct Sealant 32-17
- Duct Coat 30 – 36
- Synthetic Bond Adhesive 81 -10

DUCT ACCESSORIES

CLEAR TAPES & PROTECTION TAPE

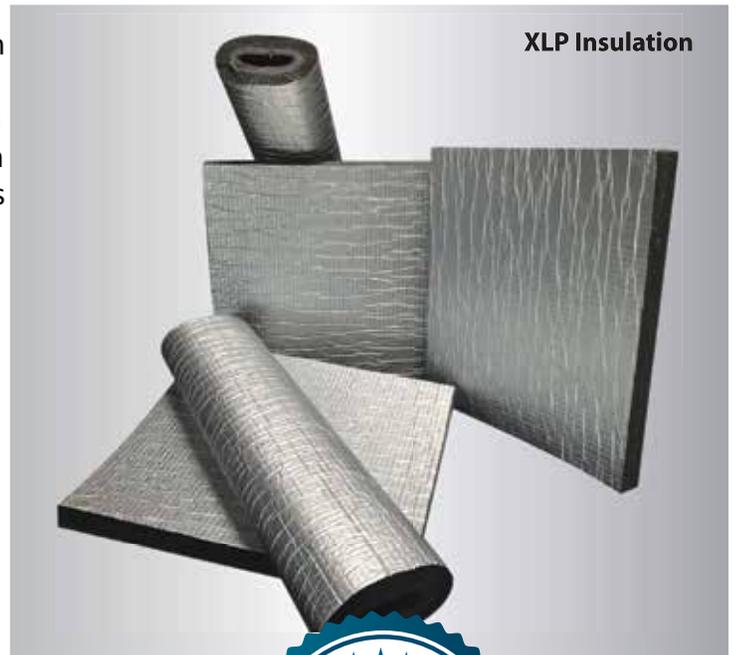

NBR INSULATION

ADHESIVE TAPES & HVAC INSULATION

»» **Advance packaging & Adhesives L.L.C** is a sister concern of Airmaster where all ranges of high-quality adhesive and packaging products are manufactured. Apart from general HVAC and packaging tapes, new products such as XLPE insulation, protection tape, gasket and sealants are also manufactured.

- XLPE Insulation
- Carry handle
- Protection tape
- Flexible duct
- NBR Insulation
- Duct coat 30-36 and Adhesive 81-10
- Wrapping and insulation tape
- Aluminium and duct tape
- Customized printed packaging tapes

FIRE DOORS

»» Fire and smoke pose a lot of danger to lives and cause extensive property damage. The high quality - UL classified fire doors manufactured by **Advance Metal Industries** compartmentalize a fire event quickly and effectively thus allowing adequate time for the occupants to evacuate a building. They have become the clear and reliable choice for building owners and designers who demand the highest level of safety and fire protection standards. What makes us unique is our efficient customer support and flexible production line regardless of the project size.

- Fire rated single and double doors (steel) – UL classified
- Fire rated windows
- Architectural metal doors
- Acoustic doors
- Steel doors with wooden finish

HVAC DUCTING AND CONTRACTING

»» **Snow Field Technical Services LLC** is a HVAC designing and contracting division of the Airmaster Group of companies, committed to performing expert quality Air-Conditioning design, installation and maintenance across UAE. At Snowfield, we do our best in developing long term relationships with our clients through reliable service. We believe that this can only be achieved through the highest level of workmanship in addition to using good quality products. We operate by the principle "Do it right the first time". All our jobs are undertaken keeping in mind the work quality and client comfort. Thus our modest premium could be translated into long term customer satisfaction.
