

MEP GLOBAL TECHNOLOGIES (MGT) AND ITS ACTIVITIES

MGT stands as a comprehensive solution provider in the construction and engineering industry, offering a diverse range of services from Mechanical, Electrical, and Plumbing (MEP) installations to advanced Engineering solutions and Trading. With a commitment to excellence, we integrate these core services to deliver holistic solutions that cater to the intricate needs of modern projects, ensuring efficiency, reliability, and innovation at every step.

INTRODUCTION

INTRODUCTION

MGT was established in 3rd quarter of 2018 after reviewing the high demand of MEP equipment's in construction industry.

We signed few major HVAC products (Midea, Arcelik, Grad First, Kingsair, Bueco, Mesan) in as agent/partner for these products for Pakistan.

We believe on quality, traceability and a fast reliable service are of paramount importance, MGT provide a valued source of supply to buyers and engineers across a wide range of Projects /Industries.

We wish to introduce us as an established leading and highly respected & reputed representative of high quality, durable and cost-effective building MEP materials, finishing materials and engineering goods.

Our marketing progress is steady in capturing the market, reliable and professional service to customers and complete satisfaction where the result is based on our strong belief that a market segment once captured has certainly to be retained.

To excel in our aim, we stick to the following tags:

- 🌀 Quick response
- 🌀 Competitive Prices
- 🌀 Delivery as per schedule
- 🌀 Service to customer satisfaction
- 🌀 Reliability

Our Vision

Our vision is to create a company with the highest standards of quality and service.

Our Mission

To be the prominent representative for building materials, by providing the highest level of professionalism, service response and quality. Our pledge is to establish a firm where highly motivated employees engage with premier suppliers to build lasting relationships with customers by exceeding their expectations.

Our Quality and Service

Quality is a management commitment and the cornerstone of MGT. The company's goal is to understand, meet and exceed customer requirements through continuous improvement of our product knowledge and awareness of new products so that we are with highest standards of quality.

We pride ourselves on providing the highest standards of service with the utmost professionalism and with personal attention from our management.
